COURSE DESCRIPTION

Engaging the caregiver of a person with dementia has the potential to increase patient satisfaction, reduce errors and improve your job satisfaction, reduce errors and improve your job satisfaction. In fact, the new RAISE Caregiver Act was passed so caregivers receive this much-needed support. This opening session will help you better partner with the dementia patient's caregiver so everyone benefits.

*This workshop is designed for intermediate and advanced level social workers & case managers who have practiced in counseling settings and/or with older adults.

Program is free to the professional; all fees paid by Ingleside @ Rock Creek
